Welcome from Leewood Ranch

On behalf of everyone at Leewood, I'd like to welcome you to the 7th Leewood Ranch Bull & Female sale offering.

Leewood Ranch is a mixed farming operation where we seed 1000ac of crop and run 500 head of Simmental cattle. We have approximately 250 purebred cows and 250 commercial cows that we run as one group. The herd is bred for early January calving and we calve everything together. Purebreds are treated like any other cows on the place and no matter the price tag only the good ones get to stay. We use AI heavily with 70 to 80% of the cow herd being bred on natural heats. We also implant 60 to 80 embryos per year. Embryos are sourced from many of the top herds in the industry, along with embryos from our own donor dams. Our cows run on private pasture and community pastures in large groups.

The girls are back for 2023. We will be selling 50-60 commercial replacement heifers in smaller packages this year. Also for the first time we will be selling 7 purebred heifers right out of the replacement pen.

I am very proud of our 2022 bull pen and I can't believe the quality in the pen this year. Last years bulls had the best average wean weight we had ever had at 47 bulls averaging 850lbs. This year 51 bulls average 925lbs on sep 14. I think there is a bull for everyone in this sale. Our black pen is lead by a IPU Bentley son that is a real standout that has had lots of people interest in. We have several black calving easy bulls out of High Roller and Summit. The red division has several MRL Rattler sons that are curve benders. The red pen Also has bulls out of Boottlegger, Max Factor, KWA Future and Summit. Our fullblood group is the smallest group but the quality remains the same. Bulls sired by Getzlaf, BRSF Alfie and Balboa lead the pen off.

We hope to see you MARCH 4 at the ranch!

Cattle can be viewed anytime!

Coffee is on and someone is always around.

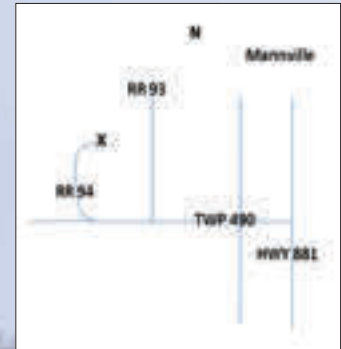

LEEWOOD RANCH

From Mannville

South on HWY 881 to TWP 490.

West on TWP 490 to RR94.

Take North fork into Yard.

100% Video Sale

Same as in 2022, the Sale Will be a 100% Video Sale

Why Video?

- ▶ less stress on the bulls and heifers
- ▶ less chance of injury
- ▶ less help needed to set up sale
- ▶ speeds up sale
- ▶ warmer in the barn

Cattle will be displayed in small pens at sale barn.

Can't make it to the sale? Watch & Bid Online.
With DLMS you can Watch, Listen & Bid on your computer just like you were there with online bidding over the internet

Instructions for Viewing And Bidding At the Sale
Visit www.dlms.ca. Fill out the registration form located under registration and sign-up for your free user account to select a username and password.
BIDDERS - To be approved as a bidder, Log in and click BUYER APPROVAL tab, select the sale you are interested in bidding at and click sign up.

Leewood Ranch Bull Protection

We are offering a 4% Bull Protection Program. This covers your bull(s) from Death or injury while at Leewood Ranch from time of the sale until delivery. Leewood Ranch will refund the purchase price, less salvage.

Insurance

Available Sale Day - Canadian Farm Insurance Crop - Heather Barr - 1-780-853-7067
Buyers not taking insurance we recommend our Leewood Ranch Bull Protection.

Delivery

- For bulls returning to the Ranch we suggest that the bulls be insured. Each animal becomes the responsibility of the buyer as soon as sold
- Heifers are to be picked up ASAP. We've had heifers go to customers in BC to Manitoba, so if buyers need a little time to set up trucking we understand.
- Deliveries will start around April 1, at our convenience.
- Bulls will be delivered free of charge to central points across the western provinces and the bordering states. We do our best to deliver your bull to your yard.
- Bulls traveling to the eastern provinces and for export will have trucking arranged at cost; unless other arrangements are made.

USA & Mexico Export

We at Leewood Ranch will arrange for all tests and paper work required to export these bulls to their new owners. It usually takes several weeks to get these tests completed and results back. Transportation will also be arranged at cost.

Bull selection Assistance

Purchasing breeding stock is a major part of raising livestock. Photos and videos are great tools, but don't always tell the whole truth. If there are any questions on sires, dams, CE, WW, milk, etc. please don't hesitate to give us a call. We can help narrow your search or point you to a bull that suits your needs.

Sight Unseen Purchases

If you need a bull but don't have the time to come to the sale we can help. Leewood Ranch is a family run operation. We are the guys that do the foot work in our operation from the feeding to the breeding. Call ahead of the sale and we can discuss what you need or want in your next herd sire. We will select a bull that will fit your operation, at your price point. The saying with us is "We'd rather keep our buyers happy than look for new ones each year." You can also place orders with the sale staff or bid online. You can bid online at DLMS.ca. Videos of the Leewood Ranch bulls will be on Cattlevides.ca, a few weeks prior to the sale. If there are any questions contact Colt Arnold.

Leewood Ranch Guarantee

All bulls are guaranteed to be satisfactory breeders in accordance with the Simmental association guidelines. We stand behind our product, Should a problem occur please contact us and we will make it right. A replacement bull (of equal quality), a credit or reimbursement will be given. We will make sure you have a bull to breed your cows. Any physical injury or mismanagement of the bull(s), will void any reimbursement.

Bull-Breeding Soundness

All bulls will be semen tested before the sale. Bulls are tested for sperm motility, morphology and are also subjected to a physical exam. They are checked for any scrotal, penis and other physical problems that would affect their ability to breed. Any bulls failing these tests will not be at the sale. Any semen deferred bulls have been tested and have been deemed by the vet to mostly likely pass a semen test at a later date. These bulls usually fail, due to age or weather problems.

Feed & Development

Bulls are started on TMR after weaning in September. The TMR consists of oat/barley silage, hay, cereal straw, rolled oats and mash from Bullseye Feeds (minerals and protein). After the sale; bulls are fed the same ration until they are delivered. We want bulls to continue to develop and to look as good sale day or better when we deliver.

Health

All bulls will be vet checked, scrotal measured, weighed and semen tested. All sale cattle are on a full health program. Our calves receive vitamin AD&E and Selenium at birth. Around a week of age calves receive the vaccine Bovilis Nasalgen. Before being turned out on grass calves are given Vira Shield 6 + Somnus and Covexin Plus. At weaning bulls are given Vista Once SQ, Vision 8 Somnus. Any question on health protocols please contact Leewood Ranch.

Polled Testing

A select number of bulls will be Homo Polled tested.
Homo polled = no horns on any Calves
Hetro polled = 50% polled calves on horned cows

Colour Testing

Some black bulls will be tested for colour expression. Homo black bulls will not sire any red calves. The fullbloods and a select few red bulls will be diluter tested. Bulls testing diluter free can be crossed with black cows and will not give you any grey calves.

Semen Reserve

We reserve the right to draw semen for in herd use on any bull in the sale offering. Semen will be at our expense and buyer's convenience.

Epd's

Epd's are basically a Mathematical estimation of a animals genetic value. They are not always right but they can help in choosing your breeding stock. Below is a list of the epd's and what they stand for.

Abbrev. Description Units

CE -Calving Ease %
BW- Birth Weight
WW- Weaning Weight
PWG- Post-Weaning Gain

- Very similar to 49K but in a more moderate frame
- Out of a first calver with a 916lbs weaning weight
- Lots of maternal greats with sires like Linedrive, Black Joker, Lotto and Wallbanger. Our Summit females have also worked very well.
- I think he'd work great on some 2nd,3rd calvers

- A heifer built very similar to the lot 57 heifer
- Ranger is out of a first calver sired by Radium
- Comes from the very productive Miss Ranger cow family. Dam has 6 sisters in-herd. Full sister is dam of lot 46. This heifer goes back to our donor cow LWC 10B which has 22 registered progeny and she's going to have a Sugar Ray baby any day.

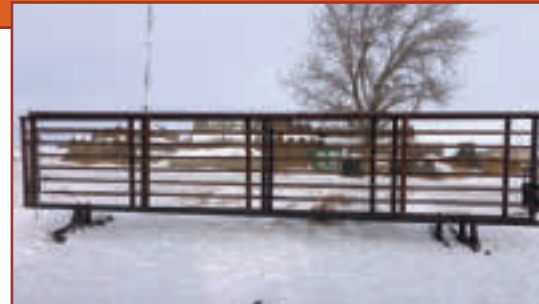

Commercial Heifers

We will be selling 50 to 60 head of commercial heifers in smaller packages. Closer to the sale date we will sort heifers into groups and have videos up on CattleVids.com along with the bull and purebred heifer videos. Just like in previous years all heifers will be palpated for breeding soundness. If there is any questions call Colt at 780-581-8328 or 780-763-0084

Portable Panels & Cattle Equipment

10 portable panels and other cattle equipment from North Panel and Bin Moving will sell
